As I rushed my antsy self into the studio of Monarch Motorsports, I couldn't help but notice these exotic, beautifully polished, tricked out cars that were all patiently waiting to be photographed. I was never a car fanatic to a point where I had to pay close attention to the details on a rim all the way to the interior designs. I must say that the L.A.'s newest yet highly demanded motor sports company sure did change my point of interest. I began to feel the heat and intensity surrounding me in the studio as I rushed to greet and meet all the stylists, and assistants. I didn't know whether it was from the loud and exotic engines or if it were the beautiful couple that were about to steam up the studio. This month, I decided to share a ravishing story, called "Bonded" which features the hottest couples that are taking the soap lovers into frenzy. Nadia Bjorlin from the daytime television show, "Days of Our Lives" and, Brandon Beemer from "The Bold and the Beautiful." As you grasp into this stimulating interview, you will soon understand that the hectic life of a soap opera star isn't all that glamorous. Enjoy!
